# MONTES ALPHA M

## GOLD MEDAL AT THE GLOBAL CABERNET SAUVIGNON MASTERS 2025

We are delighted to share another piece of great news that reinforces our dedication to excellence: **Montes Alpha M** has been awarded a **Gold Medal at the 2025 Global Cabernet Sauvignon Masters**, organised by **The Drinks Business**.

This prestigious international competition, one of the most rigorous in the world, evaluates leading **Cabernet Sauvignons** through blind tastings, based solely on quality, and regardless of origin or brand. In this year's competition, only seven wines in the world received a gold medal, making this recognition all the more significant.

For **Montes Wines**, this achievement speaks not only of the wine itself, but of the spirit that drives us: an unrelenting pursuit of perfection, loyalty to our origins, and profound respect for those who savour every bottle.

Thank you for being part of this journey. We are proud to offer you a wine that has once again been classed among the world's finest.
